FOREWORD

The 18th All India Livestock Census covering poultry as well as agriculture implements, machinery and fishery statistics conducted in the state of West Bengal was completed in scheduled time by the Directorate of Animal Resources and Animal Health, Government of West Bengal, with 15th October 2007 as reference date.

This report has been prepared to be very effective with rural/urban as well as mouza/parawise elaborate breakups for each district. Moreover the introduction of a Geographical Information System (GIS) since last census year with digital mapping of livestock data at mouza, G.P., Block, Sub-Division (Rural) and District (Rural) level for rural areas and ward, Municipal area, Sub-Division (Urban) and District (Urban) level for urban area has added new dimension to the livestock census of our state.

In this connection I greatly appreciate the well coordinated team work of Dr. P. K. Bhattacharjee, Joint Director of Animal Husbandry (Statistics) as well as Additional State Livestock Census Officer, Shri T. R. Nath, Statistical Officer and Deputy State Livestock Census Officer, 18th Livestock Census, along with other Officers and Staff of the Animal Resources Development Department in making the 18th Livestock Census a successful one.

Like previous years this census report will be most utilized in formulating different welfare plans and schemes for the state as well as in various relevant research projects.

PREFACE

The final report of the 18th All India Livestock Census for the state of West Bengal with reference date 15th October 2007, has been successfully prepared within due time. This vast well compiled report with district-wise mouza/para level data consists of updated basic data on livestock and poultry population, agriculture implements and machinery, fisheries and livestock and fishery infrastructure.

The team of officers whose hard work and co-operation has been indispensable for the timely completion of census work and publication of the report are Dr. P. K. Bhattacharjee, Joint Director of Animal Husbandry (Statistics) and Shri T. R. Nath, Statistical Officer and Deputy State Livestock Census Officer, 18th Livestock Census, along with innumerable district and state-level Livestock Census Officers and Staff.

The information provided in the report will prove very useful to all those who use animal husbandry related data in their respective work areas.

INTRODUCTION

The Directorate of Animal Resources and Animal Health, Government of West Bengal in co-ordination with Government of India, Department of Animal Husbandry, Dairying and Fisheries, has completed the 18th All India Livestock Census in the state of West Bengal in due time. Apart from enumeration, supervision, compilation and tabulation, this huge census work also involves publication of both hard and soft copies of the report.

Dr. P. K. Bhattacharjee, Joint Director of Animal Husbandry (Statistics) and Additional State Livestock Census Officer, 18th Livestock Census, West Bengal, Shri T.R. Nath, Statistical Officer and Deputy State Livestock Census Officer, 18th Livestock Census, West Bengal and many other Officers and Staff of this directorate have efficiently shouldered the responsibility of completing the census work with perfection.

Planners as well as all people working in animal resources and associated sectors will be amply benefitted from the useful findings of this elaborate census work.

TECHNICAL ASPECTS OF THE 18TH LIVESTOCK CENSUS

The total count of livestock population and its composition is available from the livestock census, which is the most important single source of data. The Department of Animal Husbandry, Dairying and Fisheries, Ministry of Agriculture, Government of India, conducted the 18th Livestock Census with reference date 15th October 2007. The census operations are carried out in different States and Union Territories by the respective State Governments. Undoubtedly an expensive statistical exercise this census it is indispensable for understanding the demographic structure of our livestock so as to be properly equipped to carry out livestock improvement programmes in the country. The livestock census covers not only livestock but includes information on fisheries and agricultural implements and machinery.

In 1919-20, the first livestock census of cattle was conducted. The subsequent censuses were conducted at intervals of five years. 18 such livestock censuses have been completed till now.

In the 18th Livestock Census, breed-wise data of indigenous cattle, buffalo, sheep, goat, pig and fowl was collected for the first time in the State of West Bengal. In the present report the cross-bred and indigenous cattle have been clubbed together as in the earlier reports for comparability with the past.

Canvassed schedule of enquiry in each household obtains information on 512 items for each household. In addition, information on another 127 items on livestock and fishery infrastructure and commercial poultry birds stock is collected for each mouza, ward and each commercial poultry farm. Field workers undertake house-to-house enumeration to ascertain stock of livestock, agricultural implements and machinery, fishing craft and tackle (as well as number of persons engaged in fishing and ancillary activities), etc., possessed by households and institutions. The field work is mainly conducted by primary workers, consisting of staff drawn from the Animal Resources Development Department and Pranibandhu personnel¹.

State-level training of trainers was arranged at Barasat, in the district of North 24 Parganas. A manual of instructions was circulated to all districts. State-level Livestock Census Officers and Headquarters Officers of the Statistical Cell also trained the block/municipality/sub-division Livestock Census Officers. The trained officers in turn trained the enumerators in the field work. A tabulation manual was prepared and sent to all districts to obtain the data in tabulated form.

Livestock, Poultry, Agricultural Implements and Machinery, and Fisheries are the four main parts of the Livestock Census. As these four parts involve a huge amount of data compilation, appropriate software called LCMS (Livestock Census Management System) has been developed. In West Bengal, Geographical Information System (GIS) has been developed for digital mapping of livestock data at all levels for each district. The systematic data base prepared in the 18th Livestock Census goes down to the level of mouza/para. The district profile includes pictorial graphs and the write-up gives a comprehensive account of the State's livestock position.

¹educated unemployed youths trained in livestock care by Paschim Banga Go-sampad Bikash Sanstha, a Govt. of West Bengal organisation.

I would like to place on record my deep appreciation for Sri Anisur Rahaman, Hon'ble Minister-in-Charge, Animal Resources Development Department, Sri D.K. Chakraborty, IAS, Principal Secretary to the Government of West Bengal, Animal Resources Development Department and Dr. K. Saha, Director of Animal Husbandry and Veterinary Services, Directorate of Animal Resources and Animal Health for their constant encouragement in compilation of the Report on the 18th Livestock Census. Their valuable suggestions have greatly contributed to the successful completion of the Livestock Census.

We are thankful to Dr D K Das, Chief Executive Officer, Paschim Banga Go-sampad Bikash Sanstha, for his encouragement in the engagement of Prambandhus in the enumeration work.

This report has received immense help and cooperation from all officers and staff of the Animal Resources Development Department. I wish to express my sincere appreciation to all of them for their whole-hearted support.

The preparation of the report has been made possible primarily due to the keen interest of Sri Tushar Ranjan Nath, Statistical Officer and Deputy State Livestock Census Officer, 18th Livestock Census, West Bengal who worked very sincerely and with great zeal in achieving the target of releasing the results in the shortest possible time. Sri Nath developed the aspects of computerization, digital mapping and analytical work, and prepared the district profiles with the Assistance of Dr. Arindam Kundu, Statistical Officer and Assistant State Livestock Census Officer, Smt. Supriya Roy, Bengali Translator and Assistanat Livestock Census Officer (Publicity) of this Directorate has also worked hard to make possible the elaborate and informative introductory write up on each of the nineteen districts and for the state of West Bengal as a whole. I also acknowledge the contribution made by other officers and staff of the Statistical Cell in bringing out the results in a very short time.

The statistical help received from the Bureau of Applied Economics and Statistics, Government of West Bengal, Department of Animal Husbandry, Dairying and Fisheries, Ministry of Agriculture, Government of India and other different organisations/institutions for various analytical parts of the Report is thankfully acknowledged.

The management of Silpabarta Printing Press Ltd (a Government of West Bengal Undertaking) and workers deserve appreciation for their unfailing cooperation in printing of books and computerized tabulation.

I am sure that scientists, researchers, policy planners and livestock data experts will benefit immensely from the information contained in this publication. We look forward to suggestions and comments on the information contained in this publication, which will be valuable for our future publications.

Government of West Bengal
Office of the Deputy Director of A.R.D. & Parishad Officer, Purba Medinipur

Acknowledgement

The progress of the country depends upon the formulation of realistic plans and programmes and their successful implementation within the stipulated time.

To achieve the goal of development each and every sector needs some basic up to date information for formulation of future plans and programmes of the particular sector.

Similarly, on our Animal Husbandry sector Government of India conducted "All India Livestock Census" through out the country to get the information regarding different Livestock Population and their allied areas, which is done at an interval of 5 years. The Livestock Census work is being done at the grass root level i.e. Gram Panchayet Level/ Ward Level to Block Level from Block Level to Sub-Division Level, then Sub-Division to District Level and District Level to Province Level and finally Province Level to State Level i. e. All India Level.

Recently "18th Quinquennial Livestock Census-2007 has been completed in Purba Medinipur District.

As present Purba Medinipur district consists of 4 (four) Sub-Division, 25 (Twenty Five) Block, 5 (five) Municipalities. All the officers and staff were utilized from the different offices under Animal Resources Development Purba Medinipur.

Besides, Officers and staff of different offices, Pranibandhu and Municipality staff of the different Municipality were engaged to complete the Census work. Total House Hold enumerated 7,92,596 numbers throughout the whole district to complete the total work i.e. Enumeration, Inspection, Tabulation, Computerization etc. Near about 350 Officers and Staff were engaged.

Besides, the Officers and Staff Pranibandhus and staff of local bodies and other departmental Officers and staff also cooperated in this work. The Sub-Divisional Officers and Block Development Officers had also extended their cooperation for smooth running of the enumeration works.

During census work in villages/ward level members of Gram Panchayet/Ward Commissioners extended their heartiest cooperation.

The Sabhadhipati and the District Magistrate of Purba Medinipur, Karmadakhaya, Mostya-O-Prani Sampad Bikash Sthayee Samity, Zilla Parishad and Panchayet Samities, Pradhans of different Gram Panchayets and Sabhapaties of different Blocks, Chairmen of different Municipalities extended their valuable suggestion regarding census work.

Thanks to Mr. T.R. Nath, Deputy State Livestock Census Officer, West Bengal, Writers' Buildings for the active cooperation. The members to different Clubs/ N.G.O. took active parts to help the enumeration work.

Lastly, thanks to the general People and all concerned for extending their cooperation towards the grand success of the 18th Quinquennial All India Livestock Census, 2007 in the district of Purba Medinipur.

PURBA MEDINIPUR DISTRICT PROFILE

INTRODUCTION :

Purba Medinipur district was declared as a separate district on 01.01.2001 after dividing the erstwhile Medinipur district. The district has four subdivisions - Tamluk, Contai, Egra and Haldia.

General Information : Tamluk Sub-division consists of 7 (seven) Blocks namely Tamluk, Sahid Matangini, Panskura- I & II, Moyna, Nandakumar and Chandipur. Haldia Sub-division consists of 5 (five) Blocks namely Haldia, Sutahata, Mahisadal, Nandigram- I & II Blocks. Egra Sub-division consists of 5 (five) Blocks namely Egra- I & II, Patashpur- I & II, and Bhagwanpur-I Block. Contai Sub-division consists of 8 (eight) Blocks Ramnagar-I & II, Contai-I, II, III Bhagwanpur-II, Khejuri-I & II Blocks. At present this district consists of 4 (four) Sub-divisions like Tamluk, Haldia, Contai and Egra bearing 25 (twenty five) Blocks and 5 (five) Municipalities like Tamluk, Haldia, Contai, Egra and Panskura. Tamluk is the district town.

LOCATION :

On the north Purba Medinipur district is bounded by the river Rupnarayan which separates it from Howrah district. On the east the river Hooghly separates it from the south 24 parganas district and its southern east boundary is the coastline of Bay of Bengal while parts of its southern boundary is the Jaleswar district of Orissa. On the west Purba Medinipur district is bounded by Paschim Medinipur district.

HISTORY :

Early History : In the east of Midnapore, presently Purba Medinipur district a tract only slightly above sea level and intersected by numerous waterways, which was apparently washed then, as now, by the sea and by the Hooghly estuary was occupied by tribes or communities of fishermen, boatmen and sailors. It is known that at the dawn of history Tamralipti (the modern Tamluk) was a great sea port; while the country round it was a stronghold of Kaibarttas, a community depending for livelihood on fishing and boating. The tract along the western border, now known as the Jungle Mahals in present Paschim Medinipur district which is still covered with the remains of forest, was the home of nomadic tribes who lived on jungle products and the spoils of the chase. Among them were the Savaras, a powerful race and other aboriginal tribes, who spread over the country from the Ganges to the Godavari. Their descendants may be identified with the nomadic Sahars of the present day and the Lodhas, a tribe of hunters, as their name implies. Between the Jungle Mahals and the sea-board lay the routes connecting Magadha and Suhma on the north with Kalinga on the south. It is not clear whether this borderland (pratyanta-desha) was included in the empire of Chandragupta (321-297 B.C.), but probably it was, for he took over from his predecessor, Nanda, the sovereignty of the country of the Gangaride, i.e., Bengal, which probably included Tamralipti. Chandragupta's dominions are, moreover, said to have extended from the Arabian Sea to the Bay of Bengal, and it is not likely that he would have failed to secure such an important Tamralipti.

Mauryan Rule : However this may be, it seems certain that, on the conquest of Kalinga by his grandson Asoka (Circa 261 B.C.), the district became part and parcel of the great Mauryan empire and shared in its civilization, Tamralipti being the principal port on the Bay of Bengal. Asoka himself is said to have erected a stupa at Tamralipti, and the Buddhist legends mention it as the port where travellers landed from and embarked for Ceylon. It was here, they relate, that the nephew and envoys of the king of Ceylon landed on their mission to Asoka; to this port they returned with a branch of the sacred bo tree, escorted by an army commanded by Asoka himself; and from it they set sail for Ceylon.

The Kalingas : When Brihadratha, the last Maurayan king, was murdered by his Commander-in-Chief (circa 180 B.C.), the empire was dismembered. Kalinga once more became independent. At this time the Kalinga kings may have recovered possession of Midnapore, for in the Mahabharata Kalinga is described as extending southwards from the junction of the Ganges with the sea. At the same time, whether subordinate or independent, the area now included in the district apparently formed part of the kingdom of Tamralipti, the distinct entity of which is admitted in the same epic.

Gupta Empire : The district subsequently passed under the rule of the Gupta emperors. Between 405 and 411 A.D., during the administration of Chandragupta Vikramaditya, it was visited by the Chinese pilgrim Fa-Hian. He described it (Tamralipti) as a kingdom "at the sea mouth" containing 24 Buddhist monasteries with resident priests, in which the law of Buddha was generally respected. From his account it is clear that Tamralipti was still an important sea port, and this is confirmed by the fact that it is mentioned by Ptolemy (circa 150 A.D.) in his geography, being placed by him on the Ganges under the name of Tamahantes

Hiuen Tsiang's account : After the overthrow of the Guptas, in the seventh century it was conquered by the Bengal king Sasanka, and afterwards by the emperor Harshavardhana, both of whose empires extended as far south as Ganjam. During the rule of the latter (about 640 A.D.) it was visited by the well-known Chinese traveller Hiuen Tsiang (Yuan Chwang). According to his account, the country (Tan-mo-li-ti, i.e. Tamralipti) was 1,500 (i.e. about 250 miles) in circuit. It was a low-lying country situated on the sea coast, which here formed a bay, with a wet soil and hot climate. The land was regularly cultivated, and produced flowers and fruit in abundance. The people were rich and prosperous owing to their trade, gems and wonderful articles of value being plentiful. They were rude in manners but courageous, and were partly Buddhists, partly heretics. There were 50 Deva (i.e., Brahmanical) temples and 10 Buddhist monasteries with 1,000 priests. The capital, which was near an inlet of the sea, was 10 (2 miles) in circuit, and by its side was a stupa built by Asoka.

Oriya Rule : The kingdom of Tamralipti survived for several centuries, but was eventually absorbed in the kingdom of Radha, i.e., Western Bengal between 1021 and 1023 A.D. The downfall of the port of Tamralipti started, for it became merely a frontier town of the Ganga kings, subject to attack and devastation.

When the Muhammadans appeared on the scene, they drove the Oriyas gradually southwards, and for a considerable time the river Damodar was the boundary between the kingdoms of Bengal and Orissa, Midnapore, with the Arambagh subdivision of the Hooghly district, forming the frontier of the latter kingdom. In the time of Hussain Shah (1493-1518) Arambagh was wrested temporarily from the Surjyavansa kings of Orissa, but during the internecine war of the Musalmans, in the time of Sher Shah's descendants, the Oriya king Mukunda Harichandan reconquered a part of the Hooghly district up to Tribeni. In 1568 Sulaiman Kararai, the Afghan king of Bengal, sent a force southwards under his son Bayazid, who, passing through Jharkhand, penetrated to the heart of Orissa. The Orissa up to the Chilka lake, then passed under the sway of the Afghans.

The rule of the Oriyas thus lasted for about 4 ½ centuries, and Midnapore, as a frontier tract, was constantly exposed to raids and invasions. Some idea of the internal state of the country during their administration may be gathered from the brief accounts given in the biographies of the great Vaishnava apostle Chaitanya who, in 1509, passed through the district on his way to Puri. The country appears to have been in a very disturbed state; several Hindu temples lay in ruins; pirates gathered on the rivers and robbers on the land; the villages were few and far between; and the Yavanas were dreaded. Cultivation evidently had decreased and trade had dwindled, thus helping to complete the ruin of Tamluk.

Afghan Rule : Midnapore appears to have fared no better under the Afghans and for nearly thirty years the district was the theatre of the struggle between the Afghans and Mughals for the mastery of Orissa and

Bengal. The ryots suffered from the exactions of the dihidars or village officials, and guards were posted at their doors to prevent them absconding. They could pay only by selling their stock of cattle and paddy, but as all wanted to sell and few could buy, a rupees worth sold for only ten annas. The poddars or money-changers were death (Yama) to the people, for they charged 2 ¼ annas discount on the rupee and as usurers they exacted interest of one pie per rupee daily. Ultimately in April 1575 following the first great battle between the Afghans and the Mughals the Afghan leader Dand Khan swore allegiance to the emperor and was allowed to retain Orissa including Midnapore. Attempts were made from time to time to wrest this part of the country from the Afghans Finally Man Singh, the Governor of Bihar fought with the Afghans in the foretress Midnapore. It was a hotly contested battle along the bank of Subarnarekha and by March 1593 Man Singh got both Orissa and Midnapore. In 1611 the Afghans once again endeavoured to recover their lost power but they were defeated in a battle fought on the banks of the Subarnarekha in 1611. After this, the Afghans gave no more trouble.

During the Afghan rule, the district appears to have been comprised in two sarkars, viz., Jaleswar and Mandaran. Its north-eastern and eastern portions lay within Mandaran (mahals Chitwa, Mandalghat and Hijili), and the rest of the district, with 23 or 24 mahals, was included, partly or wholly, in Sarkar Jaleswar, the land revenue amounting roughly to more than ten lakhs of rupees. The manufacture of salt appears to have been started on the sea-board, but the revenue from that source and from timber and other jungle produce is not known. The chief route was naturally the royal, or Padshahi, Road, along which the contending armies marched. From the accounts of their marches we may conclude that this road, starting from Jahanabad, where it was joined by roads from Burdwan and Satgaon, went south-west to Mandaran, thence south-east along the Dwarakeswar river to Chitwa in Daspur thana, and thence nearly south to Goalpara near the modern Panskura. From this place it apparently passed due east to Midnapore, following very much the same line as the Grand Trunk Road; and from Midnapore it ran a little to the west of the Orissa Trunk Road, through old villages like Kesiari and Gaganeswar, until it joined the Subarnarekha river at Jaleswar.

In the reign of Shah Jahan, Orissa was placed under the control of his second son, Shah Shuja, who was appointed Governor of Bengal. During the second viceroyalty of this prince (1646-58) a resettlement of Bengal and Orissa took place, in which sarkar Jaleswar was cut off from Orissa and annexed to Bengal. It was now subdivided into six sarkars, Goalpara, Maljyatha (with the salt mahals), Majkuri, Jaleswar, Remuna and Basta, the last three lying chiefly in the modern district of Balasore. The main object of this measure was apparently to protect the coast, which was exposed to the raids of Portuguese and Arakan pirates, by bringing it within the scope of the operations of the imperial fleet (nawara), which had its head-quarters at Dacca.

Prince Khurram's March : During the seventeenth century the tranquillity of the district appears to have been disturbed on only three occasions. The first was in 1622, when Prince Khurram (afterwards the emperor Shah Jahan) revolted against his father and marched northwards from the Deccan through Orissa and Midnapore, driving Ahmed Beg Khan, the Governor of Orissa, before him to Burdwan. Having taken that town, the Prince defeated and killed the Nawab, Ibrahim Khan, and for two years was master of Bengal. In 1624, however, he was defeated near Allahabad by the imperial forces and then fled to the Deccan through Midnapore.

TOPOGRAPHY :

Owing to its geographical position Purba Medinipur district is one of the most varied, as regards physical aspects, of the districts of West Bengal. It has been formed out of the alluvial deposits borne down by the Hooghly and its tributaries.

The alluvial portion of the district may be subdivided with greater exactness into three divisions.

First there is a strip of purely deltaic country bordering the Rupnarayan and Hooghly intersected by numerous rivers and water courses which are subject to tidal influence. This low lying tract extends for about 20 miles inland from the Rupnarayan and Hooghly. The alluvial deposit which is then reached seems to cover the final swells of the laterite formation. None of this formation as yet appears on the surface, but the water sheds between the streams are distinct and the general elevation of the country is higher.

The second division consists of the littoral tract which lies at the head of the Bay of Bengal and is exposed to the full force of the southerly winds which are prevalent during several months of the year. Much of the tract is saliferous and has to be protected from the incursions of the sea by a long embankment. Here there is a peculiar range of sand hills extending along the coast line at an average distance of 6 miles from it. This range commences at the mouth of the Rasulpur river. It appears probable that this sand ridge was at one time the coast line. The same process is indeed now going on along the present coast line where a sand ridge is gradually being raised by the action of the strong southerly wind during the hot months of the year.

The sandy soil has a vegetation peculiarly of its own which is more luxuriant and more purely tropical than the flora at the low lying lands. This part of the district has a certain picturesqueness of its own. The distinctive feature however of the more sparsely populated parts of the littoral tract is the no. of plantation of badam trees.

The third division consists of the alluvial tract constituting the remainder of the eastern half of the district. This is a monotonous rice plain intersected by numerous waterways and tidal creeks, which are lined with embankments to protect the birds from flood water. Much of the area is water steeped and this is particularly the case with the tract bounded by the Kasai river on the south and the Silai river on the north. The latter tract forms a rough triangle, the base of which is the Rupnarayan from Tamluk to Ghatal. While the apex is a point 6 miles south west of Purba Medinipur, it is a low lying depression formed of the combined deltas of the Kasai and Silai rivers and intersected by numerous khals. The river beds having been raised by the constant deposit of silt, above the level of the surrounding country, the latter has to be protected from inundation of a complicated systems of embankments. Many of these unfortunately obstruct the natural drainage of the country with the result that the soil being deprived of its increment of deposit is permanently depressed while, the waterways have become choked with silt and the land below them is waterlogged.

WATER RESOURCE :

The river system of Purba Medinipur district consists of the river Rupnarayan, Haldi, Rasulpur, Kansai, Kalighai and of their tributaries.

Rupnarayan : The river Rupnarayan enters Tamluk via north east of Ghatal Sub-division of Paschim Medinipur district. At Tamluk it bends to the east and it finally falls into the Hooghly river at Geokhali. It is now here navigable by boats and small steamers throughout the year. Several islands are found in the river channel especially near Suodighi 6 miles north of Tamluk. This river is crossed by South Eastern Railway line of Kolaghat.

Haldi : The Haldi river is the next tributary of the Hooghly south of Rupnarayan. It is formed by the confluence of the Kasai and Kaliaghai opposite Tengrakhali on the western extremity of the Tamluk Sub-division, through which it flows south-east into the Hooghly river through Haldia Sub-division at Haldia. The Haldi river is a large river at its mouth and is navigable throughout the year but navigation is difficult at low tides owing to sandbars.

Kasai : The Kasai river is the principal tributary of the Haldi. It comes from south-east of Paschim Medinipur district and it falls into the Haldi near Itamogou in Mahisadal Thana. During rainy season the Kasai is navigable by boat from its mouth to Panskura.

Kaliaghai : The Kaliaghai river is the second tributary of the Haldi which rises in the west of Paschim Medinipur district. It flows in an easterly direction through the Narayangarh and Sabang till it meets with Kasai to form Haldi. It is a drying river and it is expected that in time it will be unnavigable.

Rasulpur : The Rasulpur river is the last tributary of the Hooghly. It takes its rise in the South-west of Paschim Medinipur district under the name of the Bagda river and flows through Kalinagar where it changes its name as the Rasulpur river and it falls into the Hooghly below the Kaukhali lighthouse. It has several large feeders.

FLORA :

There are few districts of West Bengal in which the varieties of soil and vegetation are so vast. The district being flat and alluvial and its flora corresponding to that of Bengal, a large area consisting of low lying swampy land is laid out in rice fields. It is an extension of the rice swamp of central Bengal and consequently the vegetation is almost entirely aquatic or palustrine. Towards the south east and near the river Hooghly the conditions resemble those of the Savannah swamps of the Sundarbans, the principal species being 'nal' grass. Among the marsh products may be mentioned the hogla rush which is used for making mats and for thatching, the sola plant yielding an useful pith and a sedge used for making the mats for which the district is famous.

FAUNA :

Before the opening up of the district by railways and the destruction of forests which has accompanied extension of cultivation, tiger, leopard, pig and deer were to be found in the eastern alluvial portion of the district, especially near the mouths of the Haldi and other rivers. The clubs of the old Calcutta contain references to the sport obtained in Tamluk and old cultivators there mention the name of Lord Mayo as having visited this place for sport. There were also many wild buffaloes in the south of the district in former years but these have all disappeared. Large herds of spotted deer existed in Contai in the early part of the 20th C., but are now extinct. Wild pigs were found in great numbers in the south of the district.

IMPORTANT PLACES :

Tamluk : Tamluk, an ancient town of British India, in the Midnapore district of Bengal, on the river Rupnarayan, under the name of Tamralipta was the capital of the Peacock dynasty, and a seaport at which the Chinese Buddhist pilgrims embarked. It is now 60 m. from the sea, and the ruins of the old city lie deep beneath river silt.

Haldia : Haldia Development Authority works towards development of tourism. Haldia and its surrounding places like Tamluk, Mahishadal, Geonkhali, Maynagarh etc. have great tourism potential. Scenic beauty of rivers in Haldia and Geonkhali, old palaces and temples of Mahishadal or age old Tamralipta Palace, Bargabhma Temple, are here for all types of tourists.

Smriti Soudha : (Inaugurated in 1986) Smriti Soudha has a collection of photographs, paintings, statues etc. of freedom movement era. It has a huge library which consists of rare books.

Mahishadal Rajbari

Mahishadal Rajbari : Janardan Upadhyay (Garg) of Uttar Pradesh, came to Bengal for business purpose in sixteenth century AD and he bought a huge estate here. Annual income of the estate was nearly 7 (seven) lakh rupees at that point of time. There are two palaces in the Mahishadal Raj estate. Old palace was built around 1840 AD. Famous Gopajew Temple is situated in the courtyard of this palace. Presently no one resides in this palace but heritage ambience of the site is worth looking into. The new palace was built in the

year 1937 and at present the family members are residing here. The ground floor rooms have a good collection of stuffed bodies of animals and painting, furniture etc.

Rakshit Bari : Just beside the famous Bargabhma Temple the Rakshit bari of Tamluk is another temple for Indian Freedom Fighting movements. The first martyr of the freedom fighting movement Kshudiram Bose used to come here for body building, playing stick and to take part in meetings of freedom fighters. Kshudiram got inspiration, knowledge power to fight against British from here. This gymnasium was started by Surendra Nath Rakshit. Other famous freedom fighters who are associated with Rakshit Bari are Jadugopal and Dhanagopal Mukhopadhyay, Purna Chandra Sen, Ali Samser, Banarasi Adhikari, Ganesh Das etc.

Rakshit Bari

Matangini Statue

Matanginis Statue : The statue of Matangini Hazra erected near the Tamluk Jail is one of the greatest place in the history of Indian freedom fighting movement. In 1942, when Mahatma Gandhi called for non cooperation movement, Matangini devoted herself in that movement. When, she along with group of activists proceeded to Tamluk jail, police fired on them and Matangini died on the spot carrying National Flag of India. In memory of that incident the statue was erected in the same spot where Matangini took her last breath in 1942.

Hamilton School : The Tamluk Hamilton School is the second oldest institution in district of Medinipur. In 1852, this school was founded by Mr. Robert Charles Hamilton, who was a salt merchant but Mr. Hamilton was a philanthropist, and so his name can be compared with Mr. David Hare, an immortal name in educational history of Bengal. Kshudiram Bose, perhaps the first martyr, who sacrificed his life to free the nation from the hands of British rule was a student of this school from 1900 to 1903.

Moynagarh : Moynagarh has been a beautiful landscape with lush green fields and placid water all around. It is the right example of religious fraternity, the Hindu temples (Vaisnavas, Saivas, Shaktas), the Buddhist shrines (Holy place of Lord Dharma), Mazhar -sharif of the Muslim saint (sufi Manikpir), the mausoleum of the Mahanta (Sripat Gopiballav) are reverberated with solemn hymns of prayers of thousands of devotees of different religious faiths. All these exist side by side. Moynagarh has been carrying on a long tradition of cosmopolitan communal harmony and it had been the mixture of Utkal and Bengal culture.

Moynagarh

Gopaljew Temple and Ramjew Temple : Situated inside the estate of Mahishadal this temple was built by Rani Janaki in late 18th century.

Tamluk Rajbari : Believed to be built in the 5th century BC by the Mayuradha dynasty. This palace had vital role during independent era. Mahatma Gandhi, Netaji Subhas Chandra Bose came here in course of their movement against British.

Bargabhma Temple

Bargabhma Temple : The Bargabhma Temple of Tamluk has the old icon of the Hindu Goddess 'Tara' which is believed to be another face of Goddess Kali. Mythology says that Devi Bargabhma was creator of Tamralipta, once a great port of ancient India. This Temple was built by Maharajas of Mayur dynasty in 5th Century B.C. Some historians have also opined that it was earlier a Buddhist Bihar at the place of the Temple.

Natshal (Mahisadal) : Mahisadal Natshal is a place for natural beauty, serenity, calmness and peace of mind. In the year 1917, Swami Premananda, one of the direct disciples of Sri Sri Ramkrishna Paramahansa Dev started Ramakrishna Mission here. Ramakrishna Mission Temple's foundation stone was laid by Srimad Swami Shyama Nandji in the year 1927. At present beautiful saffron coloured Temple surrounded by picturesque Ashram take us to Tapobans of ancient India. Natshal at the bank of river Rupnarayan is also well known because from here various items were found which are older than Harappan Civilisation.

Muktidham : The Muktidham Temple inaugurated in 1999 is owned by 'Vivekananda Mission Ashram' whose main aim is 'service to Humanity'. This temple complex consists of the main temple of goddess Kali, and the Lord Shiva Temple. The entrance gate of the temple is built in a South Indian style of architecture.

Mirpur : The queens of Mirpur or Mirjapur founded an artillery division under the leadership of some Portuguese soldiers, to fight the 'Bargi menace' in Bengal. These Portuguese soldiers stalled the Bargis very successfully in this area & they managed some 100 acres of land from queen & settled there. Their successors still live here. A small but nice church is the main attraction here. Nearly 200 years old, this concrete church was renovated in 1975.

Muktidham

Kunkrahati

Kukrahati : Kukrahati is the gateway to the port city, Haldia. Situated at the side of the famous Hooghly river, Kukrahati is the easiest and the most comfortable and least time consuming access point for Haldia from Kolkata.

Balughata River Side : Balughata is a quiet, calm and serene riverine beach on long stretched Haldi river-bank created by mother nature.

Geolkhali : Situated at the confluence of the three big rivers namely Damodar, Hooghly and Rupnarayan is Geonkhali - a wonderful place to visit in west Bengal. Adjacent to the tourist complex at Geonkhali, the Forest Department is developing an amusement park. One can also visit Geonkhali Water Treatment Plant with special permission.

Haldia Dock : Commissioned under the Kolkata Port Trust in 1977, Haldia Dock Complex (HDC) is a comprehensive system of composite cargo handling facilities with particular emphasis on bulk cargo. The port has been a catalyst in emergence of Haldia as the industrial hub.

Haldia dock

of West Bengal and its sustained growth had put Kolkata Port Trust in the 4th rank among major Indian ports in the year 1999-2000. The port now handles annually about 21 million tonnes of traffic, which is almost two times of that a Kolkata Port. This includes 15.89 million tonnes of import and 4.80 tonnes of export. Haldia Port currently has three Oil Jetties with an overall capacity of 16 million tonnes to handle crude POL products. Haldia Dock is not only the main gateway to the industrial hub of Haldia city, but also to the entire state of West Bengal and India as well.

Nayachar : A stranger can find Nayachar to be muddy island on the Hoogly riverbed over a 40 Sq. km. area. The State Government has already recognised the potential and policy initiative has been taken to give the activity a major thrust in the state. It was identified 'Nayachar'; the island near Haldia now renamed for establishing the world's largest prawn production centre. The aquaculture project is to come up at Nayachar, near Haldia which is also to be developed as a tourist centre.

Digha

Digha : Digha is the most popular sea resort not only of West Bengal, but also of the whole of Eastern and North Eastern part of the country. Few years ago, there could be seen wide sea beach of Bay of Bengal where during the low-tide small monoplanes used to land, cars used to ply. However, due to heavy soil erosion now there is no more wide beach even during the low-tide. The beach is protected with big stones and concrete steps. And, above all, there are casurina plantation's miles long. Old Digha is expanded now to New Digha which is around 2 km from the old settlement. 10 km away from Digha, there is Shankarpur fishing port on the shore of Bay of Bengal.

Junput : Junput is also a peaceful sea resort. Dept. of Fisheries run museum and pisciculture unit, mainly, for spawn. Unlike Digha beach on the Bay of Bengal, during low-tide Junput becomes very wide and long. There is lighthouse and a famous old temple-the temple of Kapalkundala. While Bankim Ch. Chatterjee was Deputy Magistrate of Contai, he wrote his famous novel Kapalkundala in the background of this temple. In the old days there was a small but busy sea port at Hijli, very near Contai. In Marishda which is around 8-10 km from

Junput

Contai there is a 400 yrs old temple of Jagannath Dev. Other notable thing worth-seeing in and around Contai is the temple of Hatnagar at Egra (17 km from Contai). This temple was built in 1560-62. Tamralipta, was one of the busiest naval ports in ancient India. However, no remains of the port can be seen now. The temple of Bargabhimba on the bank of the river Rupnarayana, Tamralipta Museum and Sri Ramkrishna Mission at Tamralipta are places which characterise present Tamruk.
